

Two Hall Styles new furniture collection from blueisle.co.uk

Create two very different looks and make a stylish statement in your entrance hall with the latest range of beautiful solid wood furniture from new British Interiors brand Blueisle.co.uk.

This timeless and classic hall console is beautifully hand crafted using the finest solid oak throughout and given a weathered look with a matt white oiled finish which will keep its appeal, and is the 'signature finish' of Blue Isle's online furniture and lighting collection. The console can be dressed up or down and is paired here with tall turned gunmetal grey table lamps also from the Blue Isle online collection to give it a more contemporary edge. A useful base shelf is ideal for baskets of logs, or for concealing and organising hallway clutter!

Blue Isle's collection is perfect for those who love authentic design, but at very understated prices.

If you prefer a simple, pared-down look then this elm trestle is a very versatile piece of furniture and can double-up as a desk or for extra dining. The top is made from solid, reclaimed elm, which has been carefully re-finished but retains the charm of naturally aged wood. Teamed here with a pair of tall wooden scroll lamps from Blue Isle's new lighting collection, it makes a stylish and striking entrance statement.
